HB 537, Relating to Perinatal Care

Chair Shimabukuro, Chair Green, and members of the Committees:

My name is Gary Ostrander and I currently serve as the Interim Dean of the John A. Burns School of Medicine at the University of Hawai‘i at Mānoa. I wish to express support for the intent of HB 537, providing funds for the continued operation of a perinatal clinic.

I am pleased to offer my support for the intent of this measure, provided that its passage does not replace or adversely impact priorities as expressed in our Board of Regents-approved Executive Biennial Budget.

We appreciate the fact that this measure would provide much-needed resources for a critical public health program. However, we must emphasize that there are other needs contained in our UH budget request that deserve consideration as well – and have been affirmed through the review process of our University administrators, Board of Regents, and Governor.

The funds requested in the Biennium Budget are crucial to JABSOM’s fulfillment of its mission to train physicians to serve Hawai‘i and conduct research to improve the lives of our people. We cannot responsibly advocate proposals that would diminish the amount of resources needed to operate our School and execute its mission.

Thank you for the opportunity to testify on this measure.
