**ANNUAL REPORT ON THE
RESEARCH AND TRAINING REVOLVING FUND
2011/2012**

INTRODUCTION

The Research and Training Revolving Fund continues to be very effective in stimulating research, which results in extramural contracts and grants. This report summarizes the utilization of the Fund for 2011-2012 and indicates the effectiveness of this support. Procedures for awarding grants from the Fund were the same as in previous years.

The Governor's approved guidelines for the administration and utilization of the Fund:

1. The funds were administered by the Vice President for Research, the Manoa Vice Chancellor for Research, and the University Research Council within the general guidelines approved by the University President.
2. The funds were administered in the four categories described under Part I – Fund Utilization.

I. FUND UTILIZATION

Pursuant to HRS Section 304A-2253, \$50,650,202 was deposited into the Research and Training Revolving Fund and allocated as follows:

A. Scholarly Development Fund

The Scholarly Development Fund serves two purposes. The first is to provide seed money support to develop research projects or training programs for extramural funding. The second is to provide travel funds for University professionals that enable them to communicate research and new ideas at international, national or regional meetings, and to permit contact with extramural funding agencies.

Allocation

A total of \$400,000 was allocated to the fund by the Vice President for Research and the Manoa Vice Chancellor for Research and distributed as follows:

1. Seed Money Program: \$0

Table 1. (Not applicable)
2. Professional Travel: \$400,000

The council reviewed 364 travel requests totaling \$727,165.99. It made 330 awards totaling \$475,346.77 or 65% of the amount requested. Table 2 lists the Professional Travel recipients.

Allocation for 2012-2013: \$300,000

B. Facilitating Services Fund

The Facilitating Services Fund is used to support the research, instruction and public service missions of the University units that generated overhead revenue.

The fund is allocated in proportion to the overhead revenue generated by each of the units.

Effective FY 1999, the Deans and Directors of the units were granted the authority to expend these funds at their own discretion.

Allocation

A total of \$25,845,642 was allocated to the fund. Table 3 lists the distribution by unit.

Allocation for 2012-2013: \$26,732,581

C. Project Development Fund

The Project Development Fund is used to facilitate research and training in new or developing fields, provide matching funds for the acquisition of research equipment, and to promote participation in professional organizations.

Allocation

\$8,573,734 was allocated to the Manoa Vice Chancellor for Research to facilitate research and training in new or developing fields. The Vice Chancellor made 79 awards totaling \$10,712,609.97. Table 4 lists the Project Development Fund recipients.

\$0 was allocated to the Research Relations fund by the Vice Chancellor for Research. Table 5 lists the Research Relations Fund recipients (Not applicable).

\$0 was allocated to the Undergraduate Summer Research by the Vice Chancellor for Research. Table 6 lists the Undergraduate Summer Research recipients (Not applicable).

\$750 was allocated to the Student Excellence in Research Awards by the Vice Chancellor for Research. The Vice Chancellor for Research received 22

nominations and made 3 awards totaling \$750. Table 6-A lists the Student Excellence in Research Awards recipients.

Allocation for 2012-2013: \$10,546,302

D. Vice President for Research Allocation:

A total of \$6,498,241 was allocated to the Vice President for Research and funds were allocated for the following:

The Vice President for Research made 36 awards totaling \$4,857,210.38 in support of programs summarized in Table 7.

The following amounts were designated for research infrastructure, \$9,331,835: \$3,206,913 for RCUH Management Fees, \$780,000 for High Speed Internet Connection, \$100,000 for UH Connections, \$335,672 for A-133 audit, \$4,909,250 for system wide research support.

Allocation for 2012-2013: \$14,266,987

II. RESULTS OF SEED MONEY AND PROFESSIONAL TRAVEL AWARDS

A. Extramural Awards to Recipients of Seed Money

Recipients of these funds are actively seeking new sources to support their research. The Revolving Fund is very important in this connection, especially for younger faculty not yet having established a track record. Once they have initiated research with seed money, they can cite initial results, and thus make a much stronger case for receiving additional support.

Results from seed money are not always immediate, but may occur some time after a seed money award. The results reported herein thus may be due to funds allocated in earlier years. The Fund was initiated in 1975.

The Research Council awards for seed money from the Revolving Fund give due consideration to the potential for generating extramural support. Faculty receiving seed money awards must indicate their plans for extramural funding to further research. During the last fiscal year, no awards were given for seed money.

B. Extramural Awards to Faculty Receiving Travel Support

The recipients of these travel awards are all productive scholars with active research agendas. The presentation of their research results at major professional meetings allows the investigators to meet with potential sponsors and exchange ideas with colleagues. It also exposes the broader professional community, including funding agencies, to the work being accomplished at the University of Hawaii, results in increased professional recognition of investigator and the University, and leads to additional funding.

Of those granted support to travel to professional meetings to present the results of research 58 received extramural funding for research/training projects totaling \$17,384,276.

III. TOTAL EXTRAMURAL SUPPORT FOR RESEARCH/TRAINING, 2011-2012

Attached are two summary tables, Table 8 for research and Table 9 for non-research and special projects, each of which gives comparative figures for awards made to the University, on a month by month basis, for this year and the past five years.

In 2011-2012, 1,039 research awards worth \$256,980,266 and 688 training awards worth \$178,894,701 were received.

CONCLUSIONS:

As summarized in this report, the Research and Training Revolving Fund is essential to the effective operation of the programs administered through this office. It is one of the most important sources of support this University has. The Governor and the Legislature should be highly commended for their foresight in establishing the Fund as an investment in the health of research and training at the University, and for the provision of the additional funds for equipment, repairs, and maintenance.

Respectfully submitted,
