

CHAPTER 11

MISCELLANEOUS

Section 11-1 Community Fund Drives

With respect to participation in fund drives for support of community health and welfare agencies, the President shall have the authority to determine the community fund drives in which the University will participate.

Section 11-2 Sale or Consumption of Liquor on Campus.

The President shall have the authority to determine and establish policies on the sale or consumption of liquor for each of the campuses of the University system and that the sale or consumption of liquor at the campuses will not be permitted until the President establishes such policies

Section 11-3 Naming of Campus Improvements and Academic Programs.

- a. The authority for the naming of buildings, facilities, roads and academic programs on the campuses of the University shall reside with the Board.
- b. Buildings, other facilities, roads and programs will not be named for living individuals and ordinarily not before five years following the person's death, except as specifically provided by law, or when approved by the Board in special and well justified cases.
- c. Persons for whom facilities, or programs may be named must have been actively connected with the University, or must have established from Hawaii a position of national or international reputation in public service, preferably in higher education.
- d. Classrooms, laboratory buildings and academic programs normally shall be named for distinguished faculty members, administrators, Board/emergitus members, other public servants and others who have been directly involved with the University for a substantial period of time or who have made a significant contribution to its academic and cultural life. Description and functional titles may be given if so desired by the particular campus faculty, students and staff, as provided herein.
- e. Dormitories, residences, and roads, unless provided for otherwise in the case of private donations or property, shall customarily be designated with appropriate Hawaiian words.
- f. Other existing and contemplated miscellaneous structures and areas of campus, when names are necessary, may be given descriptive or functional

titles.

- g. Each chancellor shall develop and announce procedures to be utilized in developing recommendations to be sent to the Board when other than a functional name is to be recommended for a building, facility, or academic programs.
- h. In appropriate circumstances, rooms or other quarters in a building may be named to honor major donors to the University, or to the University of Hawaii Foundation, in support of the University or its programs and activities.

Section 11-4 Selling and Soliciting.

Selling of goods and/or services and soliciting on the campuses or in the buildings of the University shall be prohibited without the permission of the Board. The President shall be authorized to represent the Board in granting permission when desirable. Proper and fair bidding procedures, when appropriate, shall be followed in granting selling permission at the University.

Section 11-5 Public Health, Safety and Security.

Matters of health and safety that affect the general public also affect the University community. In turn, successful achievement of the University's teaching, research and service missions requires an environment that is conducive to the general safety, well being and security of students and employees. Therefore, the President is authorized to establish administrative policies and procedures that address matters affecting the health, safety and security of the University community including, but not limited to, infectious communicable diseases. Measures taken should stress a positive, preventive approach and be consistent with the University's mission and role as an institution of higher education.

Section 11-6 Other Awards and Recognitions.

Awards, recognition, and honors given in an official capacity from or on behalf of the University or its subunits must be established by the Board. The President is authorized to develop guidelines on the criteria and process in granting such awards once established by the Board.

Section 11-7 Hazardous Materials Management

The University shall comply with applicable federal and state laws, statutes, rules, and regulations relating to the presence, use, transportation, segregation, consolidation, storage, clean-up, remediation, and removal of hazardous materials ("Environmental Laws"). The President may, as deemed appropriate and consistent with applicable Environmental Laws, adopt and implement University policies, guidelines and procedures relating to hazardous materials management.

“Hazardous Materials” means any substance, element, compound, mixture or solution which is now or at any time hereafter in effect becomes defined as a “hazardous waste,” “hazardous substance,” “pollutant,” or “contaminant” under any applicable Environmental Laws, now or hereafter adopted, accomplished, and promulgated pursuant thereto; and asbestos, polychlorinated biphenyls (“PCBs”), petroleum, and petroleum byproducts, fuel oil, sludge, crude oil or residue, or trichloropropane.

Section 11-8 Information and Communication Technologies

The University of Hawaii is a knowledge-based enterprise that makes extensive and increasing use of information and communication technologies in support of its activities in instruction, research, service, economic development and administration. These information and communication technologies include but are not limited to networks, computing systems and databases, through which a wide range of services are enabled to support the mission of the University.

The University is committed to fostering maximum openness, accessibility and adherence to ethical principles of conduct in its digital environment without compromising the safety and security of its users or the data with which the institution is entrusted. The University is also committed to a cost-effective and sustainable technology environment that provides for institutional compliance with applicable local, state and federal and statutes.

The President shall direct the management and administration of all aspects of the University's information and communication technology environment and services and shall promulgate policies and procedures regarding the use of information and communication technologies throughout the institution. At a minimum, such policies shall outline the responsibilities of users and managers of technology systems and services and shall provide for the protection of sensitive and personal information in the stewardship of the University.

The President shall have the authority to take such actions as may be necessary to protect and ensure the availability of information and technology resources, including but not limited to suspending individual access to systems and networks, disconnecting systems from University networks, and taking disciplinary action in accord with applicable policies, procedures and collective bargaining agreements.
