I. Introduction

This Executive Policy embodies former Board of Regents Policy relating to the policy to govern parking and operation of motor vehicles on University campuses. With the Board of Regents delegation of authority to the President relating to policy to govern parking and operation of motor vehicles on University campuses, the intent of this Executive Policy is twofold. First, this Executive Policy maintains the policy-based administrative infrastructure created by Board policy relating to the policy to govern parking and operation of motor vehicles on University campuses. Second, this policy serves to transition the administration of the administrative infrastructure from Board policy to Executive Policy promulgated by the President.

II. Purpose

The purpose of this executive policy is to provide the policy to govern parking and operation of motor vehicles on University campuses.

III. Responsibilities

The President is delegated the authority to promulgate practices and procedures governing parking and operation of motor vehicles on University campuses. (See Administrative Rules, Title 20, University of Hawai'i, Chapter 13.)
