

Be an 'Animator'

* What's that? An 'animator' is like a peer teacher for the Junior Youth Spiritual Empowerment Program, often also referred as the junior youth empowerment program or simply junior youth groups. This educational program typically engages older youth as animators of younger peers aged 11 to 15 to help them develop their powers of expression, capacities for moral reasoning, and an ethic of service to others. The program combines study, mentorship and social action.
