Subject: RE: Proposed Updates/Additions to Research Policies: Human Participants

Drs. Cooney and Maynard,

We wanted to notify the UHM MFS/CoR that the policy number for the Protection of Human Participants policies has been changed to EP 12.301 and AP 12.301. Since we are in the process of renumbering the University’s research policies, we found that the original number of 12.216 had already been assigned, so we placed the human participants policies in the “300” category under Chapter 12. The content of the policies has not been revised or changed. The only change that was made was to the policy number.

Attached is a copy of the EP and AP that has been provisionally approved pending final recommendations from the MFS.

Thank You,

Michelle
