## Legislative Testimony

---

Written Testimony Presented to the  
House Committee on Judiciary  
Monday, February 10, 2020 at 2:05 p.m.

by  
Vassilis L. Syrmos  
Vice President for Research and Innovation  
University of Hawai'i System

HB 2256 HD1 – RELATING TO TECHNOLOGY TRANSFER AT THE UNIVERSITY OF HAWAII

Chair Lee, Vice Chair San Buenaventura, and Members of the Committee:

The University of Hawai'i (UH) supports this measure.

In 2017, the Legislature supported UH's efforts to promote the commercialization of inventions and discoveries generated by its faculty, students and alumni by giving UH the responsibility to ensure that technology transfer activities it sponsors comport with ethic principles embodied in the State Ethics Code. Pursuant to Act 38, Session Laws of Hawai'i 2017, University of Hawai'i sponsored technology transfer activities would be exempt from specific sections of the State Ethics Code so long as these technology transfer activities were subject to ethic policies and a compliance program established by UH that were specifically adapted to unique features of university-generated innovations.

The transfer of compliance responsibility to UH by Act 38 would sunset, however, on June 30, 2022.

The University of Hawai'i has developed draft policies and protocols and is consulting with the various stakeholder groups in the UH community, including its faculty. To continue the efforts to develop the policies, internal guidance, forms and procedural protocols to fully implement a robust compliance program, the University of Hawai'i supports the three-year extension of the sunset provision of Act 38, Session Laws of Hawai'i 2017, to June 30, 2025, as proposed in the HD1 of this measure.

Thank you for the opportunity of offer testimony on this bill.
