HB 1800 – RELATING TO THE STATE BUDGET

Chair Yamashita, Vice Chair Kitagawa, and Members of the Committee:

Thank you for the opportunity to present testimony today. The University of Hawai'i (UH) **supports** HB 1800, Relating to the State Budget. This bill adjusts and requests appropriations for fiscal biennium 2023-2025 funding requirements for operations and capital improvement projects of the Executive agencies and programs.

UH recognizes the uncertainty regarding the costs of the recovery and reconstruction efforts from the August wildfires and hopes that sufficient funding to sustain our mission will be available.

As the state's sole provider of public postsecondary education, we continue to strive to provide quality college and university education and training; create knowledge through research and scholarship; provide service through extension, technical assistance, and training; contribute to the cultural heritage of the community; and respond to state needs. We look forward to continuing to work with the Legislature to help the people of Hawai'i.

The following table represents all General Funded requests for additional funding and shows the budget request approved by the Board of Regents at its November 2023 meeting and what was included in the Governor's request. This table does not include transfers which do not affect the overall General Fund budget.

The top priority for UH is the restoration of our General Fund appropriation to pre-pandemic levels. Additionally, continuation of current funding levels for the subsidy to UH's Athletics programs and specific appropriations made outside of the budget or full-year funding of additions to last year's budget are also UH priorities.

For new funding, the top initiative is the expansion of the Hawai'i Promise Program to our four-year institutions and additional general fund support for the Promise Program at the Community Colleges, who have had to make up the difference in recent years with institutional funding.

Additionally, requests to help address the current workforce shortage in our healthcare and education industries will not only assist with employing Hawai'i's citizens in good-paying jobs but will also benefit the entire state.

This space is intentionally left blank.

The following table delineates the Capital Improvement Program (CIP) requests for UH. Similar to the operating table, this shows both the Board-approved budget request and the Governor’s current request. New entries from GM1 are highlighted in light green. These projects are GO Bond funded, except where otherwise noted.

Total		\$ 331,500,000	\$ 66,550,000

Renew, Improve, and Modernize (“RIM”) Projects are the UH’s top priority, as these funds help to address the UH’s deferred maintenance backlog. The University also respectfully requests the inclusion of additional funds to address the needs of students housing. The other projects in this list help to protect health and safety, protect and maintain existing infrastructure and system investments, and support current and funded research activity.

We look forward to working with the Legislature throughout this Session and thank you for this opportunity to testify.
