Legislative Testimony

Testimony Presented Before the
Senate Committee on Ways and Means
Tuesday, February 15, 2022 at 10:30 a.m.

By

Nicholas Comerford, Dean
College of Tropical Agriculture and Human Resources

And

Michael Bruno, PhD

Provost

University of Hawai'i at Mānoa

SB 2056 – RELATING TO SOIL CLASSIFICATIONS

Chair Dela Cruz, Vice Chair Keith-Agaran, and members of the Senate Committee on Ways and Means:

Thank you for this opportunity to testify in support of SB 2056 relating to soil classifications.

As a Soil Scientist and past surveyor in the National Cooperative Soil Survey, and having soil surveyed the foothills of Mount Rainier and the Skagit River Valley in Washington, Dean Comerford has understood the importance and use of soils information in land use planning and agriculture. The Web Soil Survey (<https://websoilsurvey.sc.egov.usda.gov/App/HomePage.htm>) provides digitized soil maps and interpretive information. In addition, the College of Tropical Agriculture and Human Resources has an on-going research project in the Department of Natural Resources and Environmental Management that is evaluating crop suitability for current and climate change environments for a limited variety of crops across the state. These resources may be of use.

The University of Hawai'i supports this bill and thank you for the opportunity to testify.
