### SB 2806 – RELATING TO THE HAWAII TECHNOLOGY DEVELOPMENT CORPORATION

Chair Wakai, Vice Chair Misalucha, and Members of the Committee:

The University of Hawai'i (UH) supports this bill that appropriates funds to support important innovation-related programs at the Hawai'i Technology Development Corporation (HTDC).

The University of Hawai'i shares a similar vision with HTDC to help establish a thriving innovation-based sector to boost the local economy, create jobs and to develop a highly skilled technical workforce. One of the key programs available to assist startups from UH and other locally based accelerators is HTDC's Hawai'i Small Business Innovation Research (HSBIR) Phase II program, which provides matching grant funding to support a small startup firm in its early efforts to develop and improve the technology that forms the basis of the business opportunity. These funds are often crucial to assist startups in developing their new technologies to the point that will allow them to tap venture capital firms for the necessary funding to become commercially successful.

In order to build a successful innovation ecosystem in Hawai'i, all parties involved must work and support each other in their endeavors. With programs such as HSBIR, continued or increased funding for HTDC is crucial to moving innovation and commercialization efforts forward in the state.

The University of Hawai'i appreciates the opportunity to testify on this measure.
