SB 426 – RELATING TO AN EARLY LEARNING APPRENTICESHIP GRANT PROGRAM

Chairs Kim and Kidani and Members of the Committees:

Thank you for the opportunity to provide testimony in support of SB 426, which establishes an Early Learning Apprenticeship Grant program to be administered by the University of Hawai'i to provide financial support for early learning program service providers in the State to participate in state- or federally-approved early learning apprenticeship programs.

Families across our state are struggling to find affordable, high-quality early learning programs that support their young children's development while families maintain their own economic stability. At the same time, there is a desperate need to support the recruitment, retention, and stabilization of our specially trained early learning workforce.

This bill offers a tangible solution to these pressing issues by:

- 1. Supporting the Early Learning Professionals:** The grant program will provide funding to support over 500 existing early learning professionals, helping them access critical training and professional development opportunities. This investment will not only enhance the quality of care but also improve recruitment and retention in the early care and education field that has historically faced high turnover due to low wages and limited growth opportunities.
- 2. Increasing the Supply of Early Learning Slots:** By incentivizing individuals to enter and advance in the field, this program has the potential to add up to 75 additional slots for infants and toddlers

under the age of three, and up to 200 slots for three and four-year olds. These additional slots will directly benefit families who are on waiting lists or forced to make difficult compromises in their work and other responsibilities.

3. **Creating Career Pathways:** By funding apprenticeships, the program will offer a structured pathway for career entry and advancement, that will enhance the recruitment of new individuals into the early learning profession. This is especially important in creating good jobs for individuals who reflect the diverse communities they will serve.
4. **Strengthening Economic Stability:** For families in Hawai'i who struggle with the high cost of living, access to reliable child care is often the key to maintaining stable employment and achieving economic security. The proposed program will play a critical role in ensuring parents can participate fully in their jobs and careers, knowing their children are in safe, nurturing, and developmentally appropriate settings.

This legislation aligns with our shared vision of prioritizing early learning as a cornerstone of our state's future. By investing in the apprenticeship grant program, we are not only addressing immediate needs but also laying the groundwork for long-term systemic improvements in early care and education for our young children's success in school and in life.

The University of Hawai'i supports this measure, provided the its adoption does not impact the priorities as identified in the BOR Approved Budget.

Thank you for the opportunity to testify on this measure.
