Vassilis L. Syrmos  
Vice President for Research and Innovation  
University of Hawai'i System

### SB 1622 SD1 – RELATING TO ARTIFICIAL INTELLIGENCE

Chair Dela Cruz, Vice Chair Moriwaki, and Members of the Committee:

The University of Hawai'i (UH) strongly supports SB 1622 SD1 which appropriates funds to establish an artificial intelligence (AI) institute within UH. As AI is rapidly transforming almost every aspect of daily life worldwide by enabling computers to simulate human learning, comprehension, problem solving, decision making, creativity, and autonomy, it is important for the state to stay ahead of this unprecedented evolution in technology.

The intent of this measure is to formalize and integrate the efforts, expertise, activities and approaches across UH's ten-campus system to serve as a resource for UH and the broader community to encourage economic development that is aligned with the state's needs. The AI institute will take a unified approach for AI insertion within activities involving UH, the state, and the greater community to address guidelines and policy, workforce development and training, and research and development in services, industries and clusters. These areas, where both UH and the state have capacity and have made investments, include: clean/renewable energy, climate resilience, space sciences and engineering, health, sustainable agriculture, additive manufacturing, creative media, and cultural preservation.

The University of Hawai'i intends to invest in the AI institute from revenue generated by its research activities and is asking the state to make an investment as a partner in this important initiative for the benefit of Hawai'i.

The University of Hawai'i supports SB 1622 SD1 provided that its passage does not replace or adversely impact priorities as indicated in UH's BOR Approved Budget.

Thank you.
