## How to Change your Main Menu Search Preference

A recent upgrade to Banner Application Navigator introduces a new search functionality where a user may search by <u>Direct Navigation</u>, meaning a user may go directly to a page by entering a page name (i.e. SPAIDEN) or by <u>Search</u> which will display all applicable finds within page titles, quickflows, and jobs. <u>Search</u> is the delivered default setting, however, you may find that <u>Direct Navigation</u> fits your personal preference.

Example if "SPA" is entered to access SPAIDEN:

• <u>Search</u> - User will have to either enter more letters to narrow down the search or scroll through the returned list to find SPAIDEN.

on Comment

• <u>Direct Navigation</u> - User will need to enter all 7 letters of SPAIDEN.

To change your "Personal Settings" to <u>Direct Navigation</u>, complete the steps below:

Step 1: Click the Menu icon to expand the Menu.

Step 2: Click your User Name at the bottom of the displayed menu to display your user options. *See image below for menu icon and User Name.* 

1. Click this icon to expand menu.
