

Director of Planning and Spatial Experience

This is administrative work in providing campus-wide and system-wide leadership, direction and control over the planning, development, and implementation of the campus environment and capital project standards to improve the campus experience.

As a member of the Vice President for Administration's leadership team, this position is responsible for providing leadership and direction in the development of short and long-range facilities and infrastructure plans for the advancement of academic, research, student and campus initiatives; serving as the University's representative for the systematic planning and development of large scale, complex, multi-million dollar capital improvement projects (CIP); analyzing the feasibility of proposed CIP projects and asset management plans and making recommendations based on available funding and resources; recommending and securing funding from private capital, the legislature and other sources; providing comprehensive advice to senior executives related to long range development plans and campus master planning efforts; and communicating the vision and goals of planning initiatives and the development and prioritization of projects to ensure the successful integration and programming with administration, departments and campuses.

Work requires extensive experience in project management, construction management and administrative management over multi-million dollar capital projects, project scheduling and on-time completion; extensive knowledge of best practices in planning project development and CIP policies, procedures, requirements and processes; and ability to oversee the development of large-scale, complex programs and innovate project plans. Work involves considerable contact and collaborative approach with campus and University leadership including senior executives and administrators, campus administrators, legislators, and city and county officials, federal and state agencies, various industry organizations, contractors, and general public. Work is performed with seasoned tact, diplomacy, initiative and sound judgement. Work is reviewed for results and effectiveness.

The amendment and retitling of the class Director of Planning and Project Development to Director of Planning and Spatial Experience is approved effective

April 13, 2023.
